R.Punith Kumar

Senior UX Designer

punithravi1@gmail.com +91 96295 87706 Portfolio

Professional Summary

Senior UX Designer with 4+ years of dedicated UI/UX experience and 7+ years of overall professional experience. Skilled in end-to-end UX design, enterprise product design, design systems, usability testing, accessibility, and cross-functional collaboration, with experience leading a 7-member design team.

Skills

User Research | Ideation & Brainstorming | User Experience Design | Wireframing | Prototyping | Accessibility | Responsive Design | Usability Testing | Visual Design | Design Leadership | Cross-Functional Collaboration | Stakeholder Workshops | Design Systems | Heuristic Evaluation | AI-Assisted Design / Generative AI

Experience

Mettler Toledo — **Coimbatore**

UX Design Professional — Aug 2025 to Present

Selected Projects: FreshX Sync, Asset+

- Lead end-to-end UX design for FreshX Sync as an individual contributor, driving UX strategy, user flows, wireframes, prototypes, high-fidelity UI, developer handoff, and design QA.
- Designed and delivered device and agent onboarding experiences that improved clarity around device states, telemetry information, and operational workflows.
- Contributed to the rollout of a reusable design system using standardized components and design tokens, improving consistency across enterprise interfaces.
- Partner with Product Managers, Product Owners, stakeholders, and developers to validate solutions through usability testing, accessibility reviews, responsive design, design reviews, and implementation QA.

Mindgraph Technologies — **Coimbatore**

UI/UX Design Lead — Dec 2024 to Aug 2025

Selected Projects: MyFutureJobs, ESG Tool for KPMG

- Led end-to-end UX design across multiple digital products, covering UX strategy, design planning, wireframing, prototyping, high-fidelity UI design, and release coordination.
- Led and mentored a team of 7 designers, providing design direction, reviewing deliverables, and ensuring quality and consistency across projects.
- Presented design solutions to clients and stakeholders, translating business requirements and feedback into actionable UX decisions and design improvements.
- Partnered closely with development teams during implementation and design QA to ensure alignment with approved UX specifications and support on-time product releases.

Mindgraph Technologies — **Coimbatore**

UI/UX Designer — May 2023 to Dec 2024

Selected Projects: Malaysian Airport Digital Ecosystem

- Led UI/UX design across a portfolio of 9 digital projects for a Malaysian airport ecosystem, including web, mobile, CMS, e-commerce, employee applications, and the official website.

- Translated business and operational requirements into user flows, wireframes, interactive prototypes, and high-fidelity interface designs across multiple product types.
- Managed design activities across concurrent projects, balancing platform requirements, stakeholder expectations, and delivery timelines.
- Collaborated with clients, stakeholders, developers, and cross-functional teams to validate design solutions, clarify interaction behavior, and support implementation feasibility.
- Created graphic design and social media creatives to support organizational communication and marketing needs.

Tabtree Software Solutions **Chennai**

UI/UX Designer Mar 2022 to May 2023

Selected Projects: Delegate, LMS Portal, NTE, Peteye, Prithivi Retailer App, CRM

- Worked as an individual contributor designing user experiences for B2B and B2C mobile applications, SaaS platforms, CRM tools, and internal portals.
- Translated business requirements into user flows, wireframes, interactive prototypes, and high-fidelity interface designs.
- Collaborated closely with developers during implementation to clarify design specifications and maintain consistency between design and development.
- Gathered user and stakeholder feedback through research and usability testing, incorporating insights into iterative design improvements.

Tata International Limited **Ranipet**

Assistant Industrial Engineer Mar 2019 to Feb 2022

- Analyzed industrial workflows to identify process inefficiencies and opportunities for operational improvement.
- Supported process optimization initiatives through structured analysis, workflow refinement, and implementation support.
